HEARTFILIA MACPOODLE

Heartfilia Macpoodle is a anthropomorphic dog who loves to be an actress, singer and dancer as her entire career. She is an original Disney heroine created by me, Tyler “David Lawrence” Frederick.

Heartfilia had been brought to this reality as an original Christmas character since I had her in my thoughts through out December 2018, and in my opinion, she maybe more attractive than Minnie Mouse & Betty Boop.

INSPIRATION

Heartfilia maybe inspired by 3 celebrities that she may be influenced to, the celebrity profiles I selected are Madonna, Britney Spears, Jennifer Aniston and Kylie Minogue.

Their occupations and careers may have given me ideas for my Disney character, Heartfilia to be in some sort of connection to them as influences for her to fit right in.

Britney Spears

Jennifer Aniston

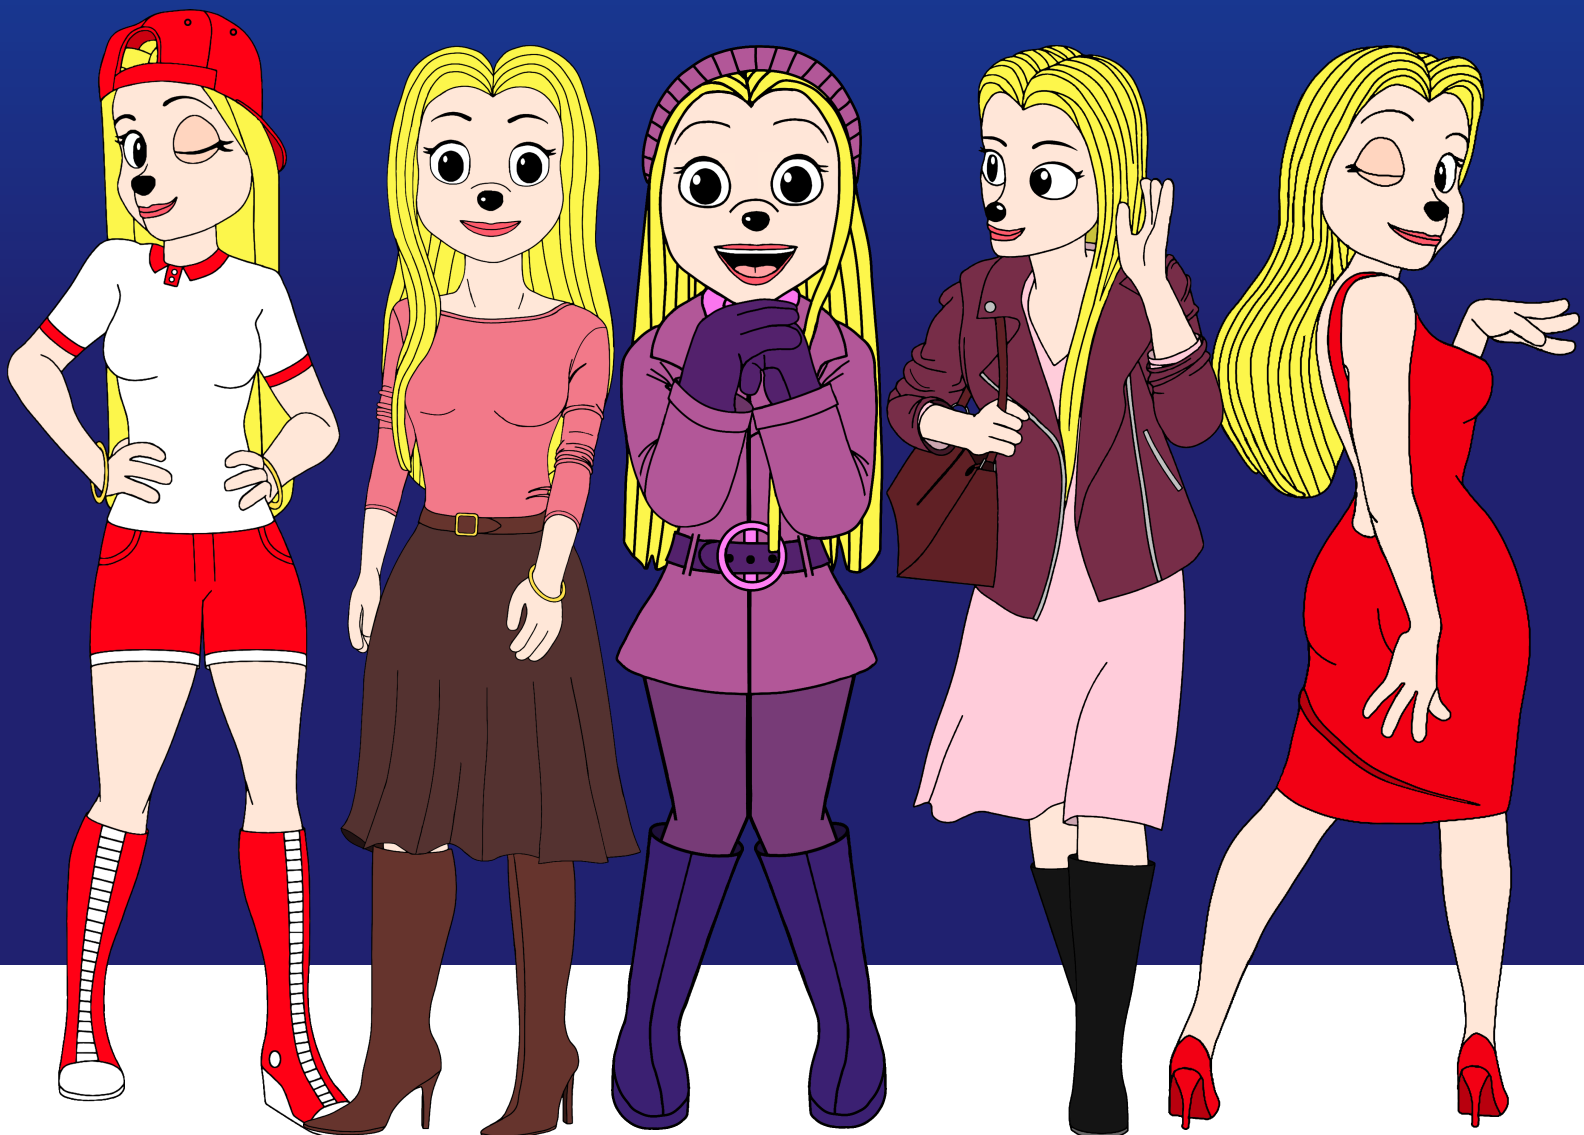

Kylie Minogue

HEARTFILIA'S FASHIONABLE STYLES

Heartfilia only wears at least five original outfits as her signature styles through out Spring, Summer, Autumn and Winter.

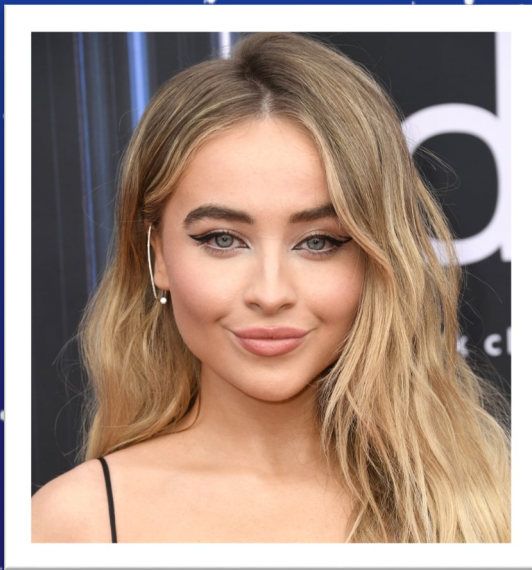

Her first style is her sporty casual, the second one is her household beauty, the third one is her protective winter attire, the fourth one is her business career style to go to work and the fifth one is her night out outfit to go out at evenings.

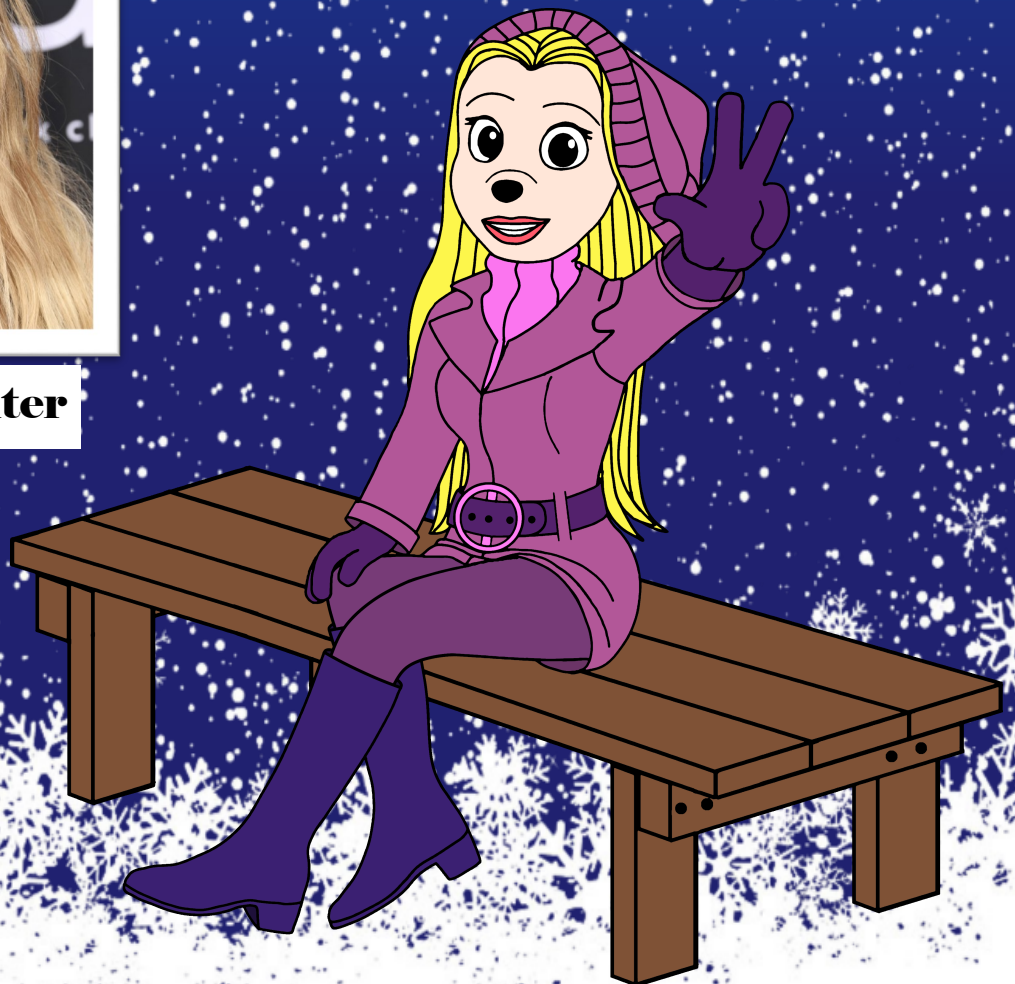

HEARTFILA'S VOICE ACTRESS

Heartfilia's would be perfect to have a voice actress, as well as having a singing actress too and one singer and actress who I recommended is Sabrina Carpenter.

Sabrina Annlynn Carpenter was known to had a recurring role as the young version of Chloe Goodwin in The Goodwin Games and starred as Maya Hart in the Disney Channel series Girl Meets World.

HEARTFILIA'S ORIGIN STORY

The idea for an origin story of Heartfilia would probably based on reality which must be suitable for those between teen and over.

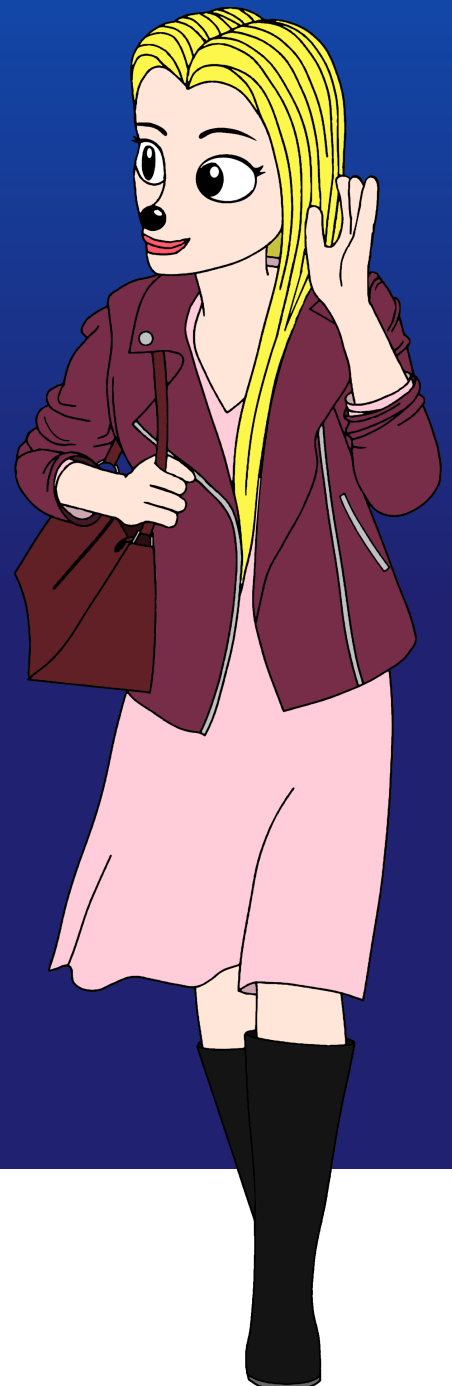

Like most teenagers who will some day grow up to be young adults, Heartfilia must learn to follow these steps by her family and take big responsibility to start her big future ahead of her.
